Full Risk Disclosure, Disclaimer, And Legal Notice

1. Risk Warning

Trading in Forex (Foreign Exchange), Contracts for Difference (CFDs), and other leveraged products involves a high level of risk to your capital and may not be suitable for all investors. Leverage can work both for you and against you. As a result, you may lose more than your initial deposit. Only trade with funds you can afford to lose.

You should carefully consider your investment objectives, level of experience, and risk appetite before engaging in any such transactions. We strongly advise that you seek independent financial advice before trading if you are unsure.

Past performance is not indicative of future results, and no representation or warranty is given that any trading strategy, signal, or method will achieve profits or avoid losses.

Negative balance protection may or may not apply depending on your account type and jurisdiction. Please confirm with us before trading.
